

Frame Fit Direct

windows • doors • conservatories

With so many companies offering seemingly the same products but at dramatically different prices, how can you decide what's best for you? A lot of the time it's easy to make a buy based on cost, but this may not always be the right choice.

Products: When you buy from Frame Fit Direct you're guaranteed a great job made from only the best components and materials every time. We only use the Rehau profile on all our products which not only has excellent thermal capabilities but performance and durability built in. All of our large openers are secured with a 9 point locking system and are tested to BS7950 to guarantee you exceptional quality.

Conservatories: Buying a conservatory for your home requires a lot of consideration, are you buying the best, what style is right for your home, have you got all the facts? All of our conservatories are made using only the finest materials and components such as the REHAU Profile and Yale stainless steel locking system. With years of experience you're in safe hands with Frame Fit Direct.

Doors: All our doors are manufactured using a high technology process that ensures excellent quality with great looks, and all come with a Yale anti lift locking system as standard! With Frame Fit Direct making the right choice has never been easier.

WINDOWS

We only use the industry leading REHAU profiles to manufacture all of our systems. The systems offer exceptional quality in terms of both appearance and performance.

The REHAU system is extruded from RAU-PVC 1406 (unplasticised, modified polyvinyl chlorides) which is vigorously tested to temperatures as low as -40° and up to +60° without losing any quality or durability.

The REHAU profile offers much more than just exceptional performance but superb aesthetics. The smooth sight lines and perfectly cut angles give the

profile a beautiful and professional finished touch.

With our extensive range of colours, styles, hardware options, locks & gearing you can guarantee that not only will you get a product that can suit every home but is extremely durable and will last for years to come making our PVCu products a cut above the rest!

9 POINT LOCKING

With an ever increasing crime rate it has never been so important to have that extra bit of security for your home. That is why all our windows have 9 locking mechanisms making it the safest and most secure window on the market today.

With: 4 x Espagnolette Locks, 2 x Shootbolts, 2 x High Security Friction Hinges and an extra Security Clip - you really will not find a better window system than ours!

- Inboard eurogroove provides greater security.
- All lock gearing is contained inside the profile isolated from any moisture.
- Larger reinforcement chamber providing a very strong robust system.
- Chamber profile with unique drainage system giving excellent thermal performance.

PVCu COLOURS

STANDARD COLOURS - Our products are available in 4 different colour options as standard, so whether you want a classic, crisp white window or an elegant golden oak patio door then look no further!

ONLY WINDOWS - Our extensive coloured foil selection is available on the REHAU S706 70mm System. The colours are foiled on the outside and white on the inside. Foiled on both sides are available on request.

WINDOWS & PVCu DOORS - If you want windows to match your door, bi-fold or patio slider then we offer these 6 colours you can choose from to transform your home.

VERTICAL SLIDING SASHES

Our vertical sliding window and heritage collection is the perfect option to add class, authenticity and style to any home with its traditional deep bottom rail, slim sashes and optional georgian bar.

With the very latest in security, traditional looks certainly does not mean traditional security. Also, every window has a tilt and turn function which means ease of cleaning and maintenance so you can have sparkling clean windows all year round.

This combined with increased thermal performance and noise reduction you really are looking at some of the best Vertical Sliders on the market today.

VERTICAL SLIDERS - Are available in the standard colours and in a further 3 unique coloured options in Rehau. If you want more choice of colours please ask about our new Evolve vertical slider.

PVCu DOORS

With so many beautiful panels and glazing designs to choose from you will be spoilt for choice.

By utilising the best materials and exceptionally high standards of production, our stunning collection of decorative glazed door panels are the perfect choice for any home.

Our PVCu doors are manufactured using the very latest techniques of two-skin bonding to a variety of high quality core materials which increases integrity against heat and moisture.

The type A Expanded Polystyrene we use on all doors is totally recyclable, non toxic and inert. It contains no CFC's or HFC's and contains a fire retardant additive, formulated to restrict the extent of burn giving it improved performance against fire risks.

PATIO DOORS

Our patio doors are not just any patio door, with their sleek lines and stunning finishes they can enhance and compliment any home.

With excellent thermal properties and increased security it makes it the best patio door on the market today.

FRENCH DOORS

Bring the outside inside, with our large opening french doors. The large glazed openings combined with side screen options really bring the outdoors inside, allowing more light to fill your home.

Our french doors conform the very latest in security standards and are available in all the custom foiled coloured options, so not only can you have PAS 23/24 locking and police approved security but you can choose the perfect colour and design to suit your home.

YALE LOCKING SYSTEM

As one of the oldest international brands Yale is among the best known and most respected names in the lock industry. With their high security products, and a commitment to product development it is no wonder that there are millions of customers worldwide securing their homes and businesses with a Yale lock.

COMPOSITE DOORS

We believe that durability and security are paramount in today's market place but also that style and choice shouldn't be limited to meet these requirements.

All of our composite doors come with the most advanced locking systems as standard and combined with its solid laminated veneer lumber core makes it the strongest and safest composite door on the market today.

The highly robust core materials provide exceptional thermal and sound insulation properties whilst creating the perfect barrier to keep all the warmth from your home in and all the loud noises from the street out.

The door is also protected with a blended polycarbonate skin which has a high impact strength, of which similar blends are used in the manufacture of police helmet visors and even riot shields!

COMPOSITE DOORS - Are available in these realistic grained GRP skins with extra options of having a colour on the one side and white the other or the same colour both sides.

The Highest PVCu & Composite Security

All of our doors have gone through extreme vigorous testing to ensure that not only can they withstand harsh weather conditions but can protect against various physical invasion methods caused by attempts of burglary.

The door, frame, locking mechanisms and various other security components have gone through extreme testing of simulated break-ins to ensure that you and your family are significantly more safe and secure in your home.

CONSERVATORIES

By using only the best materials and components such as the REHAU profile, 9 point locking system on all large openers and Yale locking systems as standard on all doors we guarantee you will not find a better conservatory. All of our products are tested by the British Standards Institute and carry the prestigious Kitemark PAS 24. All this coupled with our huge selection of styles, colours, glazing options and panels we can guarantee that, except the exceptional quality, no two conservatories will be alike.

There are countless companies out there offering what seems to be the same product but it is not. We understand that buying a conservatory for your home requires a lot of consideration, which is why we only use the best components and materials. Furthermore our dedicated staff are with you every step of the way to ensure your dream is realised. With our conservatories you can expect:

- No risk of warping under direct sunlight.
- No holes on rafter fixing, so no risk of water penetration like other conservatories.
- A stronger box gutter to increase strength and eliminate condensation.
- Excellent thermal properties from the high quality REHAU profile.
- Exceptional cooling qualities with our state of the art roof vents.
- All our conservatories come with industry leading accreditations.

The Edwardian

The P-Shaped

CONSERVATORIES - Are available in the 4 standard colours of white, golden oak, mahogany and rosewood, but also in these 4 additional specialist colours.

CONSERVATORY ROOF OPTIONS

GLASS - We believe in giving you a wide variety of choice, so whatever qualities you want, with our extensive collection, you can have the perfect roof for your dream conservatory. Our glass roof options offer high G Values and low U Values. The high G Values adds extra solar gain, allowing more heat to pass through the glass making your conservatory warm and cosy. The competitive U Values means that the lower the number, the less heat is lost.

Pilkington Activ™ glass combines dual-action, self-cleaning properties with solar control performance for a cooler internal environment. It is a revolutionary glass that is perfect for use in conservatories. It uses daylight and rainwater to breakdown and wash away organic dirt from exterior surfaces, making it ideal for hard to reach places that are difficult to clean.

POLYCARBONATE - Our polycarbonate options offer high thermal insulation and superb light transmission, together with a favourable specific weight to mechanical property ratio, which combine to provide some of the best polycarbonate options around.

Please note: Colours are only as accurate as the printing process allows

BI-FOLDING DOORS

With great appearance and outstanding quality our bi-folding doors gives your home a modern and sophisticated door system full of excellent benefits. Perfect for opening your home to the garden, allowing light to fill your room making it a much more versatile living experience.

Our bi-folding doors boast superior engineering, utilising REHAU profiles and Yale locking systems, making it the perfect option for your home.

ENERGY EFFICIENT GLASS

A staggering 26% of all domestic heat loss escapes through the windows. By using Planitherm you could save a staggering 28% on your heating bills each and every year!

Its advanced coating technology reflects radiated heat back into the room, rather than allowing it to escape through the windows. At the same time, Planitherm allows free heat and light from the sun to pass through the glass.

The result? Lighter, brighter, warmer and more energy efficient homes thanks to the advanced thermal insulation of Planitherm.

Planitherm is 3 times more efficient than single glazed units and at least 25% more efficient than most currently installed double glazing!

TECHNICAL SPECIFICATIONS

A RATING

A rating is achieved with both the 60mm '6 Series' and 70mm '7 Series' by using 4mm Diamant Low Iron / 4mm Planitherm Total + with a warm edge spacer bar.

- Slim sight line profiles.

- Slim & standard sight line profiles.
- Standard or full reinforcement (to allow coloured options).
- Double glazing with Argon gas filling and low E coating.
- Aluminium spacer.

OBSCURE GLASS

For privacy, pure style or to allow more light into internal rooms, decorative glass gives you a whole range of attractive options, from classic floral designs to our premier range of etched glass the possibilities are endless.

GLASS DESIGNS

To add that extra flare to any window why not add a classy golden georgian bar design to your side screens or go for something more periodic like a traditional vertical sliding window with a geometrical astragal layout?

GLASS BEVELS

By subtly combining a touch of colour, shape and shades of decorative glass you really can transform any piece of glass into a defining statement of elegance and style.

Whether you want a bevelled design for your door or something uniquely uniformed on all your top sashes then with our extensive, hand made glass designs, you will be spoilt for choice.

If you have your own design in mind than that's not a problem, we can create almost anything, so you can have a unique, bespoke design for your windows or doors.
